Curso:

Transforming the education in the 21st century: The singapore experience

Descripción:

### Course Objectives

By the end of the course, participants should gain a better understanding of how Singapore's education has developed and the critical factors responsible for its successful transformation. Participants should also learn how to conceptualise and apply best practices in managing an education system.

### Synopsis and Methodology

The course will share Singapore's experience in achieving education success and the benchmarks to ensure the relevance and responsiveness of Singapore's education system. Apart from lectures, there would be discussions and learning journeys, i.e. visits to schools or relevant institutions, to reinforce learning outside of the classroom.

Participants will be encouraged to share their experiences and learn to apply 'best practices' to their own respective countries' education systems.

### Duration

The course will be held from 4 to 8 May 2015.
