SEMINAR ON INFORMATIZATION AND SUSTENTABLE DEVELOPMENT FOR DEVELOPING COUNTRIES

Descripción:

Established in November 2006, CIFAL Shanghai International Training Center (CIFAL Shanghai) is a professional institution for consulting, researching and training in the field of global economic and information technology application approved by Ministry of Foreign Affairs of the People's Republic of China and co-founded by United Nation Institute for Training and Research (UNITAR) and Regional Cooperation Office for City Information (RCOCI).

CIFAL Shanghai has devoted itself to push forward the application of IT technology and promote the business innovation through the investigation of the advanced theories and methods on the informatization management. CIFAL Shanghai focuses on the development of innovative training, knowledge system and ability construction. Provides the opportunities of systematic learning and knowledge sharing to the high level government officials and administrators through the multilateral cooperation. The contents involve the various fields such as sustainable economy, urban management, construction of informatization, and information technology application etc. Our center cooperates with the institutes of domestic governments, Chinese Academy of Science, famous universities, and international IT leading service companies to provide the strategic and foresighted informatization decision-making supporting service for governments and enterprises at local and abroad. Our center is always engaged in the extensive international exchange and cooperation with international organizations and the relevant institutions of UN in the field of project, technology and training. CIFAL Shanghai has over 50 staff to ensure the high effective daily work of the center, which includes the returned oversea experts, Doctors, Masters and senior consultants.

Under the open business mode of "Collaborative and Sharing", our center has already completed many businesses for informatization research and consulting, has held 6 annual forums on city informatization in the Asia-Pacific region successfully, and has held over 20 international and domestic training workshops. Through these workshops, more than 300 engineers and managerial personnel from over 60 countries in the world have been trained in technologies and management of informatization. During the period of World Expo in this year, CIFAL Shanghai will cooperate with Bureau of Shanghai World Expo Coordination to organize and implement several conferences and projects in the field of information.

Through integration of theoretical and practical trainings, such as thematic lectures, special subject, free discussion and spot investigation, the participants will be introduced to China's and Shanghai's practice and achievements in the field of informatization construction, be aware of the status of social and economic development in China completely and objectively and the application of information technology for sustainable development, be built up concretely philosophy of informatization construction. CIFAL Shanghai will seek a effective development way to informatization construction for participants' countries with all participants together through this seminar. The seminar is believed to further promote economic and technical cooperation in the field of information technology application between China and the trainees' countries, and to deepen the friendship with the developing countries.

CIFAL Shanghai has arranged abundant courses and lectures for the participants. It is mainly related with the topics of Planning of informatization strategy and application of Information technology in different fields of social development (such as communication, agriculture, education and city construction etc.) Participants will have study tour opportunities to visit the informatization construction and several famous IT enterprises in Beijing and Jiangsu Province.

The period of this seminar held is just during the time of World Expo 2010 Shanghai China. CIFAL Shanghai will organize participants of this seminar to visit the Expo Site and arrange to join the Theme Forums of World Expo held by our Center.
